

Product List

SYNTHRON

Chemical Specialties for Agrochemicals and Fertilizers formulation

YOUR ADVANCED SOLUTIONS PARTNER

DISPERSING AGENTS

SURFARON A 1530 N 100

Powder form dispersant and anticaking agent
Polynaphtyl methane sulfonate sodium salt

SURFARON A 1560 N 40

Liquid form of **SURFARON A1530 N100**
Dispersant
For copper based WDG

MASQUOL A 150 – 40 N

Liquid form dispersant for WDG
40% Sodium Polyacrylate

DISPERSING SUSPENDING AGENT

SURFARON A 1543 N 100

Powder form dispersant
Excellent dispersing effect
Excellent wetting properties
For aqueous "flow", WDP, wettable powders
Anti-caking properties
Alkyl aryl methane sulfonate

DEFOAMERS

MOUSSEX 941 PL

Self emulsifiable defoamer
Silicone free
For herbicide formulation. emulsifiable concentrate

MOUSSEX 397 SL

Efficient in waterborne formulations at acidic and alkaline pH
Efficient even at high temperature.
Soluble in solvents

MOUSSEX 9032 CL

Process defoamer for NPK fertilizers production
Efficient in acidic pH (pH 1)
Efficient at high temperature (60-70°)

MOUSSEX 910 SE

Liquid defoamer
For WDG formulation based on copper sulfate or copper oxychloride.

MOUSSEX 319 SP

Powder defoamer for granular NPK fertilizers.

MOUSSEX 7134 HE

Mineral oil emulsion defoamer for liquid fertilizers.

EMULSIFIERS

SURFARON A 1820 N 75

Anionic and non ionic surfactants blend
For aqueous suspensions formulation

SURFARON 9 TD

Emulsifier for herbicides formulation

SURFACTANTS

ACTIRON AT 2

Dynamic wetting agent
For formulation of products for foliar spray application.

MODAREZ X 840

VOC free wetting agent for the formulation of foliar spray applied products

METALLIC CHELATES

SYNTHRON RANGE

Metallic chelates made from various sequestering agents.
Liquid or powder form

Sequestering agents = EDTA, EDDHAS, DTPA, H-EDTA

Trace elements = Iron, calcium, copper, manganese, magnesium, zinc,...

SEQUESTERING AGENTS

MASQUOL EDTA Na powder

EDTA based sequestrant

MASQUOL DTPA

DTPA based sequestrant

MASQUOL EDTA - OH

H-EDTA based sequestrant

MASQUOL GHN 30

Complexing agent based on sodium glucoheptonate

TRACE ELEMENTS BLENDS

SYNTHRON MMN

Range of chelated trace elements blends : Iron, copper, calcium, manganese, magnesium, zinc, molybdene, boron,...

THICKENERS

PROX AM 162 S

Acrylic Polymer alkali swellable emulsion
thixotropic rheology
Emulsion and dispersion stabiliser

PROX A 899 E

Inverse emulsion acrylic polymer
Post addition
Stable with electrolytes
Stable over a wide pH range

ODOUR NEUTRALIZERS

SYNTHRON STAB TF

Residual formaldehyde neutralizer

SYNTHRON DS 644

Mercaptans neutralizer

ODOUR MASKING AGENTS

- **Liquid form**

MASQUODOR AMD

MASQUODOR BTMT

MASQUODOR FGR « H »

MASQUODOR LL3

MASQUODOR NFD

MASQUODOR TF

MASQUODOR NFD 1812

PLASTODOR LVF

- **Powder form**

MASQUODOR TFP

MASQUODOR AMD P

MASQUODOR MENTHE 10221
