

Product List

SYNTHRON

**Chemical Specialties for lubricants,
greases and metal working fluids**

YOUR ADVANCED SOLUTIONS PARTNER

DEFOAMERS AND DEGASSING AGENTS

MODAREZ MFP P 40	Defoamer for non aqueous media. Oil manufacturing/ Refinery. Antifoam for packages dedicated to turbine oils
MODAREZ MFP-O 60 S	Defoamer for non aqueous media. Oil manufacturing/ Refinery. Antifoam for packages dedicated to turbine oils
MOUSSEX 397 SL	Defoamer for metal working fluids
MOUSSEX 7114 HL	Silicone free defoamer for metal working fluids
MOUSSEX 920 SE	Polysiloxane-based liquid defoamer
MOUSSEX 9136 SE	Polysiloxane -based liquid defoamer Efficient in strong alkaline media
MOUSSEX 561 PL	Phosphate ester liquid defoamer Degassing Efficient in strong acidic media
MOUSSEX S 667	Polysiloxane-based antifoam for solvent media

CORROSION INHIBITORS

ACTIRON DNNS 60	DNNS acid in a high flash point oil
SURFARON A 1650 B 50	Corrosion inhibitor for grease and oil. Barium salt of a sulphonated derivative.
SURFARON A 1650 CA 50	Corrosion inhibitor for grease and oil. Calcium salt of a sulphonated derivative.
SURFARON A 1650 ZN 40	Corrosion inhibitor for grease and oil. Zinc salt of a sulphonated derivative.
SYNTHRO COR V 609 B	Corrosion inhibitor for metal working fluid
SURFARON A 1408 A 100	Corrosion inhibitor for aluminium substrates. Wax form 100%.
SURFARON A 1408 A 75	Corrosion inhibitor for aluminium substrates. Liquid form 75%.

**2 ETHYL HEXYL PHOSPHORIC
ACID**

Base for corrosion inhibitors

SYNTHRO-COR 221

Corrosion inhibitor for solvent borne system

SEQUESTERING AGENTS

MASQUOL EL 40

EDTA liquid form 40%

MASQUOL EDTA NA P

EDTA powder form

MASQUOL NTA 3 liq

NTA liquid form 40%

MASQUOL NTA 3 Na p

NTA powder form

MASQUOL P range

Phosphonates

MASQUOL P 55 32

Specific mix of phosphonates
Corrosion inhibition properties

MASQUOL GHN 30

Iron sequestering agent in alkaline media

SURFACTANTS EMULSIFIERS / COUPLING AGENTS

SURFARON A 1820 N 75

Anionic and non ionic surfactant blends
Emulsifier for oils

SURFARON 6 TD

Phosphoric ester 100%
Emulsifying properties
Dispersing properties
Antistatic properties

SURFARON 9 TD

Phosphoric ester 100%
Emulsifying properties
Dispersing properties
Antistatic properties

SYNTHRO-COMP 60 B

Non ionic surfactant
Emulsifier
Ecolabel

SYNTHRO-COMP CA

Synergy of surfactants
Emulsifier

THICKENERS / RHEOLOGIC AGENTS

PROX A 300	Neutralised acrylic polymer Efficient in neutral and alkaline media
PROX A 899 E	Acrylic polymer, inverse emulsion Efficient from pH 4 to 11
PROX AM 162S	Acrylic polymer Alkali swellable emulsion

WAX DISPERSIONS

PROX-AMINE PE 40	Polyethylene dispersion Very low melting point
PROX-AMINE NP 9159 GL	Polyethylene dispersion High melting point Reducer of friction coefficient, torque additive
PROX-AMINE NP 912 GL	Polyethylene dispersion Low melting point
PROX-AMINE CP 9189 AL	Polyethylene dispersion, cationic High melting point 30% of active matter
PROX-AMINE PNK	Modified paraffine dispersion 45% of active matter

SPECIALTY BINDERS

PROX AM 219 R / PROX AM 270 R	Cationic binders. Stain blocking effect
PROX AMS 169	Styrene acrylic resin Compatible with epoxy binders For two components floor or wall paint formulation (with epoxy)
PROX AM 152	Acrylic binder Temporary protection
PROX AM 157	New technology acrylic binder Fast drying in adverse conditions
PROX AM 355	Acrylic polymer compatible with plaster

PROX AMB 328	Acrylic polymer compatible with cement
PROX EB 3400	Epoxy binder type 1004 VOC free
PROX B 9913 C	Epoxy binder type 1009

pH STABILIZER

SYNTHRO-STAB 25 B	pH stabilizer between 8 and 10 Dispersing properties Corrosion inhibition properties
--------------------------	--

NEUTRALISERS

SYNTHRO-STAB TF	Formaldehyde scavenger
SYNTHRO DS 321	Mercaptan scavenger

ODOR MASKING AGENTS

- **Liquid form**

MASQUODOR AMD

MASQUODOR BTMT

MASQUODOR FGR

MASQUODOR LL3

MASQUODOR NFD

MASQUODOR TF

MASQUODOR FRD 492

MASQUODOR NFD 1812

PLASTODOR LVF

- **Powder form**

MASQUODOR TF P

MASQUODOR AMD P

MASQUODOR MENTHE 10221
