#### WHERE ARE THE SYNTHRON PRODUCTS USED IN THE PAPER INDUSTRY?

### **TABLE OF CONTENTS**

■ VIRGIN AND DE-INKED PULP		P 4
Sequestering agents	Actiron <sup>®</sup>	р 4
Wash Aid	Synthro®-Pon	p 4
Anti-scaling prevent	Synthro®-Scale	p 4
Smell inhibitors	Synthro®-Stab	p 5
Pitch control	Synthro®	p 5
Antifoams	Moussex <sup>®</sup>	p 5
■ WET END		P 6
Anionic trash control	Synthro®	p 6
Wire and Felt treatment	Synthro®-Pon	p 6
Fixing agents	Synthro®-Fix	p 7
Softener	Prox®-Amine NE	p 7
Flame proof agents	Synthro®-Nyl	p 7
Antifoams	Moussex®	p 7
■ SIZE PRESS		P 8
Flame proof agents	Synthro®-Nyl	p 8
Barrier products	Synthro®-Pel	p 8
Insolubilizing agents	Prox®	p 9
Touch surface modifiers	Synthro®-Wax	p 9
Formaldehyde absorption	Synthro®-Stab	p 9
Antifoams	Moussex®	p 9
■ COATINGS		P 10
Barrier products	Synthro®-Pel	p 10
Release Agents	Synthro®	p 10
Slip Easy	Synthro®-Wax	p 10
Cross Linkers	Prox <sup>®</sup>	p 11
Dispersant	Synthro®-Sperse	p 11
Binders	Prox <sup>®</sup>	p 11
Rheology modifiers	Synthro®-Vis	
Flame proof agents	Synthro®-Nyl	p 11
Antifoams	Moussex®	p 11

### **VIRGIN & DE-INKED PULP**

SEQUESTERING AGENTS FOR BLEACHING WITH H <sub>2</sub> O <sub>2</sub>	
Actiron® DP 950	Excellent results in replacing DTPA, with a lower COD value.
Actiron® EP 319	Excellent results in replacing EDTA, with a lower COD value.
Actiron® DF 30	DTPA free sequestrant, with an EDTA content < than 4%. No CMR.
Actiron® B 329	Biodegradable sequestrant, DTPA and EDTA free.
Actiron® BF 324	Biodegradable sequestrant, DTPA, EDTA and phosphorus free.

WASH AID	
Synthro®-Pon W	Green surfactant BFR, FDA and Ecolabel approval. APEO free.

ANTI-SCALING PREVENT	
Synthro°-Scale 451	Inhibitor for mineral scale problems, such as calcium oxalate, calcium carbonate.
Synthro°-Scale 287	Cleaning agent to dissolve organic compounds.
Synthro°-Scale BaDs	Boil out chemical for mineral deposits (calcium oxalate, barium sulphate)

#### **VIRGIN & DE-INKED PULP**

SMELL INHIBITORS	
Synthro°-Stab HE N	Inhibitor of smell coming from hexanal. DTPA free.
Synthro°-Stab HE	Inhibitor of smell coming from hexanal.

PITCH CONTROL	
Synthro®-Pon H-PE	Hydrophilic pitch dispersion by passivation.
Synthro°-Cat 563	Cationic polymer for fixing anionic substances.
Synthro°-Cat 622	Formaldehyde free cationic agent.
Synthro®-Pas 420	Cationic hydrophobic polymer for treatment of pitches by passivation.
Synthro®-Pas 445	Non-ionic hydrophobic polymer for treatment of pitches by passivation.
Synthro°-Sperse 747	Anionic dispersant to avoid problems of pitches deposits.

ANTIFOAMS	
Moussex® 7141 HL-V	VOC-free vegetable oil defoamer, based on renewable raw materials.
Moussex® 9138 SE	Silicone based antifoam with an excellent stability at high temperature towards alkalis and acids as well as in presence of electrolytes.

### **WET END**

ANIONIC TRASH CONTROL	
Synthro®-Pon PW	Biodegradable non-ionic wetting and dispersing agent with the property of dissolving organic deposits. BFR, FDA and Ecolabel approval. APEO free.
Synthro°-Cat 563	Cationic polymer for fixing anionic substances. Formaldehyde free.
Synthro°-Cat 622	Formaldehyde free cationic agent.
Synthro®-Pas 420	Cationic hydrophobic polymer for treatment of pitches by passivation.
Synthro®-Pas 445	Non-ionic hydrophobic polymer for treatment of pitches by passivation.
Synthro®-Pon H-PE	The only product that allows the envelopment of anionic trash in recycled process waters.
Synthro®-Sperse 747	Anionic dispersant to avoid problems of pitches deposits.

WIRE AND FELT TREATMENTS	
Synthro®-Pon H-PE	Avoids fabric and wire occlusions due to stickies deposits by envelopment of fabric filaments.
Synthro°-Pon WPT	Formaldehyde free cationic polymer to solve problems related to stickies and pitches.
Synthro®-Pon WPT 1	Highly cationic formaldehyde free polymer to solve problems related to stickies and pitches.

FIXING AGENTS	
Synthro°-Fix WF	Cationic polymer for fixing anionic pigments.
Synthro°-Fix FF 335	Formaldehyde-free dye fixing agent.
Synthro®-Fix GRD	Formaldehyde-free dye fixing agent for direct and reactive dyes.

SOFTENER	
Prox®-Amine NE 9198 HL	FDA/Bfr hydrophilic softener for tissue and paper, concentrated at 100%, VOC free. High softness without mechanical property reduction.
Prox®-Amine NE 9199 BL	Bi-component FDA/Bfr hydrophilic, for tissue and paper, concentrated at 100%, VOC free. High softness without mechanical property reduction.

Synthro®-Nyl ATH 15  Mineral, halogen-free, VOC-free agent, with an endothermic behavior.	FLAME PROOF AGENTS	
it could be used for food contact papers.	Synthro°-Nyl ATH 15	Mineral, halogen-free, VOC-free agent, with an endothermic behavior. It could be used for food contact papers.

ANTIFOAMS	
Moussex <sup>®</sup> 7141 HL-V	VOC-free vegetable oil defoamer, based on renewable raw materials.
Moussex® 7143 HE-V	VOC-free vegetable oil emulsion defoamer, based on renewable raw materials.
Moussex® 9032 CL	Polymer based oil defoamer.

### **SIZE PRESS**

FLAME PROOF AGENTS	
Synthro°-Nyl NSP 917 S	Colorless product, especially for white paper. Efficient at low dosage levels, low effect on mechanical properties.
Synthro °-Nyl NSP 919 S	Excellent penetration in the paper sheet for high speed production. Effective first of all for colored paper and board.
Synthro°-Nyl SNP 1813 S	Organo-mineral formulation.
Synthro®-Nyl PN 2116 S	Organic non-corrosive product, suitable for inside applications.
Synthro°-Nyl NS 2017 S	Fire-proofing agent developed for cellulosic materials (paper, cardboard, wood).
Synthro®-Nyl PN 2313 S	Non corrosive and excellent penetration in paper or board.
Synthro°-Nyl NP 2720 S	Organic non-corrosive agent.

BARRIER PRODUCTS	
Synthro®-Pel 164 RS	Anionic wax free, with good water proof properties and no or low effects on printability.
Synthro°-Pel B 67	Fluoropolymer free, high-performance as water, oil and grease barrier. Sealable product.
Synthro°-Pel FB 494	High performance water, oil, grease and vapor barrier polymer, with a good resistance to folding. Sealable product.
Synthro°-Pel CWO	Anionic fluorine resin free waterproof and greaseproof coating agent, with good abrasion resistance properties. Sealable product.
Synthro®-Pel PAL	Excellent anionic water proofing effect for paper and non-woven products.
Synthro°-Pel WA 491	Vapor barrier agent approved for use in food contact paper and board grades. Sealable product.
Synthro®-Pel XF	Cationic reactive water repellent, may also be used as an extender for fluorinated resins.

INSOLUBILISING AGENTS	
Prox <sup>®</sup> M 3 M LF	Melamine based cross linker with low formaldehyde content (no CMR).
Synthro Cat 673	Catalyst for melamine formaldehyde resins, compliant for food contact applications.
Prox <sup>®</sup> HP-U Conc.	Accelerator and hardener for waterborne binders.

TOUCH SURFACE MODIFIER	
Synthro°-Wax PE-L 300 D	Cationic PE based emulsion with the ability to modify paper touch surface.
Synthro®-Wax PE-L 304 D	Gives very soft handle and slight slip properties when used as a surface treatment. Avoids blocking and sticking in latex rich impregnation and surface treatments.
Synthro®-Wax PE-L 305 D	Gives slight slip properties when used as a surface treatment.  Avoids blocking and sticking in latex rich impregnations and surface treatments
Synthro®-Wax PE-H 306 D	Non-ionic polyethylene emulsion, excellent abrasion resistance, lubricating and high softening power.
Synthro°-Wax N-C 402 D	Non-ionic carnauba wax emulsion.
Synthro°-Wax N-M 403 D	Non-ionic montan wax emulsion.

FORMALDEHYDE ABSORPTION	
Synthro°-Stab TF 278	Formaldehyde and acetaldehyde scavenger.
Synthro°-Stab TF 501	Formaldehyde scavenger, reduces formaldehyde odors and emissions.

ANTIFOAMS	
Moussex® 7141 HL-V	VOC-free vegetable oil defoamer, based on renewable raw materials.

## **COATINGS**

Fluoropolymer free, high-performance as water, oil and grease barrier. Sealable product.  Anionic fluorine resin free waterproof and greaseproof coating agent, with good abrasion resistance properties. Sealable product.  High performance water, oil, grease and vapor barrier polymer, with a good resistance to folding. Sealable product.  Excellent anionic water proofing effect for paper and non-woven products.  Vapor barrier agent approved for use in food contact paper and board grades. Sealable product.  Synthro*-Pel WA 491  Synthro*-Pel XF  Cationic reactive water repellent, may also be used as an extender for fluorinated resins.  RELEASE AGENT  Synthro*-Pel SCR 38  Chromium complex with excellent release properties, no need of catalyzes and good printability.  Bynthro*-Stab 808  pH-buffer, stabilizer of acid Chromium (iii) complex.  SUIP EASY  Synthro*-Wax PE-L 304 D  Polyethylene emulsion with lubricant property.  Gives slight slip properties when used as a surface treatment. Avoids blocking and sticking in latex rich impregnation and surface treatments. Can replace calcium stearate.  Non-ionic polyethylene emulsion, excellent abrasion resistance, lubricating and high softening power.  RHEOLOGY MODIFIER  Synthro*-Vis TPC 38  Thickener and water retention agent, with high water retention properties.	BARRIER PRODUCTS	
Anionic fluorine resin free waterproof and greaseproof coating agent, with good abrasion resistance properties. Sealable product. Chromium complex with excellent release properties, no need of catalyzes and good printability.  Bynthro*-Stab 808 pH-buffer, stabilizer of acid Chromium (iii) complex.  BLIP EASY  Bynthro*-Wax PE-L 304 D Polyethylene emulsion with lubricant property.  Bynthro*-Wax PE-L 305 D Gives slight slip properties when used as a surface treatment. Avoids blocking and sticking in latex rich impregnation and surface treatments. Can replace calcium stearate.  Bynthro**-Wax PE-H 306 D Non-ionic polyethylene emulsion, excellent abrasion resistance, lubricating and high softening power.  BYNTHRO*-Vis TPC 38 Thickener and water retention agent, with high water retention properties.	Synthro®-Pel XF	Cationic reactive water repellent, may also be used as an extender for fluorinated resins.
Synthro®-Wax PE-L 304 D Polyethylene emulsion with lubricant property.  Synthro®-Wax PE-L 305 D Gives slight slip properties when used as a surface treatment. Avoids blocking and sticking in latex rich impregnation and surface treatments. Can replace calcium stearate.  Synthro®-Wax PE-H 306 D Non-ionic polyethylene emulsion, excellent abrasion resistance, lubricating and high softening power.  RHEOLOGY MODIFIER  Synthro®-Vis TPC 38 Thickener and water retention agent, with high water retention properties.	RELEASE AGENT Synthro®-Pel SCR 38	
Synthro®-Wax PE-L 304 D  Polyethylene emulsion with lubricant property.  Gives slight slip properties when used as a surface treatment. Avoids blocking and sticking in latex rich impregnation and surface treatments. Can replace calcium stearate.  Non-ionic polyethylene emulsion, excellent abrasion resistance, lubricating and high softening power.  RHEOLOGY MODIFIER  Synthro®-Vis TPC 38  Thickener and water retention agent, with high water retention properties.	Synthro®-Stab 808	pH-buffer, stabilizer of acid Chromium (iii) complex.
Gives slight slip properties when used as a surface treatment. Avoids blocking and sticking in latex rich impregnation and surface treatments. Can replace calcium stearate.  Non-ionic polyethylene emulsion, excellent abrasion resistance, lubricating and high softening power.  RHEOLOGY MODIFIER  Synthro®-Vis TPC 38  Thickener and water retention agent, with high water retention properties.	SLIP EASY	
sticking in latex rich impregnation and surface treatments. Can replace calcium stearate.  Non-ionic polyethylene emulsion, excellent abrasion resistance, lubricating and high softening power.  RHEOLOGY MODIFIER  Synthro®-Vis TPC 38  Thickener and water retention agent, with high water retention properties.	Synthro®-Wax PE-L 304 D	Polyethylene emulsion with lubricant property.
lubricating and high softening power.  RHEOLOGY MODIFIER  Synthro®-Vis TPC 38  Thickener and water retention agent, with high water retention properties.	Synthro°-Wax PE-L 305 D	
Synthro®-Vis TPC 38 Thickener and water retention agent, with high water retention properties.	Synthro®-Wax PE-H 306 D	
	RHEOLOGY MODIFIER	
Synthro®-Vis FA 365 Conc. Flow agent improving surface properties as gloss, defects and streaks.	Synthro®-Vis TPC 38	Thickener and water retention agent, with high water retention properties.
	Synthro®-Vis FA 365 Conc.	Flow agent improving surface properties as gloss, defects and streaks.

CROSS-LINKERS	
Prox <sup>o</sup> EB 9913 C	Aqueous emulsion epoxy resin with a very high molecular weight; very high alkali resistance.
Prox <sup>®</sup> H-PU Conc.	Accelerator and hardener for waterborne binders.
Prox <sup>®</sup> M 3 M LF	Melamine based cross linker with low formaldehyde content (no CMR).
Prox <sup>®</sup> R 908	Polyurethane emulsion, very effective as cross-linker for PVA.

#### **DISPERSANT**

**Synthro®-Sperse A 11** Product to keep pigments dispersed in slurry or in coating color.

BINDERS	
Prox <sup>®</sup> AM 185 RS	Modified acrylic resin to get the coating more rigid and resistant to high temperature.
Prox <sup>®</sup> AM 219 RG	Cationic acrylic copolymer emulsion, giving a soft film.
Prox <sup>®</sup> AM 234	Amphoteric core shell acrylic emulsion.
Prox <sup>®</sup> AM 270 R	Cationic acrylic copolymer emulsion, giving a hard film.
Prox <sup>®</sup> EB 9913 C	Aqueous emulsion of solid epoxy resin with a very high molecular weight, giving very high alkali resistance.
Prox® R 908	Polyurethane emulsion giving greaseproof, waterproof and good abrasion resistance.

#### FLAME PROOF AGENTS

Synthro®-Nyl ATH 15	Mineral, halogen-free, VOC-free agent, with an endothermic behavior.
	It could be used for food contact papers.

#### ANTIFOAMS

**Moussex® 7141 HL-V** VOC-free vegetable oil defoamer, based on renewable raw materials.

# SYNTHRON

#### **WORLDWIDE MAIN IMPLANTATIONS**
